## WASHINGTON

There is a school that's dear to me;  
It's built of red, red brick,  
When once within it you can see  
The reason for my pick.

The corridors so straight and fine,  
The classes that are fun,  
No other school could be so prime,  
As dear old Washington.

## MEMORIES

As the twilight lengthens  
And the lights are low,  
We think of our greatest losses  
Which seem so long ago.

We think of the dear one taken  
From us to the One above;  
We think of her protection,  
Her guidance, and her love.

Still tender memories linger  
We cannot let them part;  
We keep them still within us,  
Close to our lonely hearts.

Ann Augusta Green

### The Birch Tree

It stands alone against the sky;  
And watches the farmer passing by;  
He stops his horse and down he sits  
Under the birch to rest a bit.

It glistens brightly in the sun;  
And underneath the brook does run.  
It watches the birds way up in the sky;  
And also the clouds which are piled so high.

It watches the flowers and the bees  
As it gently sways in the morning breeze.  
In the afternoon it watches the cows  
As it gently sways its hanging boughs.

And it still remembers as it watches them  
As it gently sways in the evening wind  
The day that God created man  
As softly its dying boughs it bends.

Donold Stafford

# EDITORIAL

As the end of the school year draws near, we find ourselves eagerly waiting for the publication of the annual. We hope to find in the chronicals, the jokes, and in the stories things which will call to mind in years to come events which have happened here. As we pick up an old copy of the annual we shall see the names of friends we no longer know; we shall recall the episodes which turned the school into a turmoil; and last, but not least, we shall realize that we had some of our happiest moments here.

## *Editor's Note*

*Due to the lack of space, time, and money we have been forced to omit several departments. However, we have included many new ideas which easily balance the omission of the other items.*

---

*We, the editors, wish to express our gratitude for the work and cooperation of the teachers and pupils in publishing this annual.*

After the death of the late Frederick E. Botsford, former supervisor of Music in the Jamestown schools, several music loving friends raised a sum of \$1200. The interest on this amount, which is \$60 a year is divided into three prizes of \$20 each, to be given to the seventh, eighth, and ninth grade of the Junior High Schools that receive the highest percent in the annual Botsford Memorial Singing Contest. ## The Lyceum

The Washington Junior High School Lyceum was organized five years ago by Mr. Torrance and a group of interested boys most of whom have graduated from the Senior High School.

Our purpose as indicated by the Constitution is to acquire a more thorough mastery of the principles and practices of Parliamentary law, to cultivate ability for public speaking and debate, and to stimulate an intelligent interest in questions of public policy.

We feel we are functioning properly, due to the fact that a large majority of our members enter the Senior High School Lyceum. Many are elected as class officers and our school is well represented on High School debating teams.

Several debates have been held at our meetings. picked teams have thoughtfully debated such quesitons as: Resolved, "That the City of Jamestown annex Celeron," and Resolved, "That High School fraternities be abolished."

Debates have been only a part of the work done, we have played that we were a city council transacting local business. Each member was a councilman with the power to introduce resolutions, debate and vote.

Our membership was limited to twenty-five, we attempted to select only those interested in the work by requiring each candidate to present a trial speech upon a selected topic. Our meetings were held on Friday afterschool. Any member who was absent more than three times without an excuse was dropped from our roll.

The officers of the first term were: Richard Thrasher, president; Clifford Olson, vice president; Wakefield Thompson, secretary; Orsell Price, sergeant-at-arms; LeRoy Barkstrom, debate manager; and Harlow Johnson membership committee chairman.

The second term officers are as follows: John Peterson, president; LeRoy Barkstrom, vice president; Harlow Johnson, secretary; Orsell Price, sergeant-at-arms; Wakefield Thompson and Charles Garlock, debate managers; Richard Thrasher membership committee chairman.

The Lyceum was profited by talks given by Mr. Stanley Turnquist, and Mr. C. Parks Belknap. Several faculty members offered useful correction during our meetings concerning debate.

It is possible for us to carry on our purposes due to the fact that we have an active group of seventh and eighth grade people with us next year.

Mr. Claude Parker acted as adviser.

The officers of this club were as follows: President, Frank Geiger; Secretary, Wakefield Thompson; Treasurer, Robert Breckenridge and Sergeant at Arms Walter Lindholm.

The purpose of the club was to build models of airplanes. Each person in order to become a member must build an R. O. G. that stayed up a certain number of seconds. Then he was allowed to build some other type of plane.

There was a short business session at the beginning of each meeting and then a period for work.

Mr. Miller of the composite shop sponsored the club.

The club made candy, muffins, waffles, ice cream, and other articles.

## PARENT-TEACHERS ASSOCIATION ACTIVITIES

The Parent-Teacher Association of Washington Junior High school under the leadership of its president, Mrs. Harry Baldwin, has done much to help the school during past year. One of their first activities was the serving of coffee and hot dogs at the football games. This work was done under the direction of Mrs. Harold White, and netted a generous sum of money for the Campus Improvement Fund.

The musical organization of the school, directed by Miss Lora Belle Lepar and Mr. Arthur Goranson have helped to make the evening meetings a success. The spirit in which the directors and students have taken part in the programs has been very much appreciated.

One of the most delightful P. T. A. affairs was an afternoon meeting at which the ninth grade girls were the guests of the association during the program and afterwards, under the direction of Miss Kathleen Downs, served as hostesses to parents and teachers for the social hour.

Much credit is due this year to Mr. Roy Woodbury for the success of the Spring Frolic. Through his efforts and the work of his committee, a large sum was added to a fund which will be used soon for the building of tennis courts on the school campus.

We should like to remember at this time the good work done by the former president of Washington Junior High Parent-Teacher Association: Mr. Lynn R. Van Vlack, Mrs. William B. Conroy and Mrs. Charles A. Larson. During the coming year Mrs. Harry Baldwin will continue the work, begun this year.

Those interested in Washington Junior High should know that there are many parents who devote much time year after year to the various activities of our school. To them and to Mr. G. E. Bentley who as principal and parent always helps all who call upon him, pupils and teachers would like to express their appreciation.

### Mass Athletics

Rope skipping being a part of the Inter-Mural events was charge of the Physical Directors. The average was taken after each pupil had skipped for thirty-seconds. In this event Washington won first place, Jefferson second and Lincoln third.

# This Book

This year-book is a product of the Washington Junior High print-shop, all type-setting and printing having been done by Mr. Filmer's students. Without their hard work, publication of a year-book would have been impossible. Our only expense has been that of the paper which was very small.

Work to secure material for the book was begun rather late this year thus much more effort had to be spent by the work-shop students than the previous years to get it ready for publication. The students of Washington and the Board of Editors wish to express sincere and grateful thanks to the pupils who helped to make this book a success.

The following are the boys who did the printing:
